

Get More from Your Software:

Why our NAFEMS Partnership Matters to You

You chose us because you need a powerful, accurate, and reliable simulation tool to solve complex challenges and drive innovation. But the tool is only part of the story; our commitment to your success goes beyond that.

That's why **we are proud members of NAFEMS**, the world's only independent, non-profit organization dedicated to promoting the safe and effective use of simulation. Our membership is an active, strategic partnership that directly enhances the software you use every day. It's our commitment to ensuring you have the best possible tool, backed by the collective intelligence of the global simulation community.

What you get is a triangle of excellence made up of **You**, the innovator; **Us**, the technology provider; and **NAFEMS**, the independent authority on quality and best practice.

The NAFEMS Advantage

Our active role in the NAFEMS community translates into a more powerful and reliable toolset for you.

1. Smarter, More Relevant Software

We participate in NAFEMS' Technical Working Groups, Subcommittees and Regional Steering Committees, gaining direct insight into the real-world challenges you face. This ensures our development roadmap is aligned with your needs, not our assumptions.

- **For you, this means:** *Features that solve real problems and a tool that evolves faster and more intelligently.*

2. A Commitment to Verifiable Quality

NAFEMS is fiercely independent and vendor-neutral, focused on establishing best practices for simulation. Our membership is a public pledge to uphold these high standards and a demonstration of our commitment to quality.

- **For you, this means:** *Confidence in your results. You can trust that you're using software developed in line with sound, community-vetted principles.*

3. Powered by a Global Knowledge Ecosystem

Our teams have access to the vast NAFEMS knowledge hub, which includes thousands of technical papers and best-practice publications.

- **For you, this means:** *Superior support. When you need help, our advice is informed by a global repository of simulation expertise, ensuring you get the best solution, faster.*

Your Turn:

Empower Your Career & Your Team

Our partnership with NAFEMS not only enhances our tools but also opens the door for you to become a more effective simulation professional. Joining the community allows you to build on your tool-specific skills with foundational knowledge and credentials.

Achieve Your Professional Goals

NAFEMS provides world-class, code-independent training on the fundamental principles of simulation. This knowledge is critical for ensuring your results are not just numerically correct but physically meaningful.

Take the next step with the internationally recognized **Professional Simulation Engineer (PSE) Certification**. This qualification provides independent verification of your skills, giving you a clear path for career progression.

Access an Unrivalled Community of Experts

As a member, you gain direct access to the entire NAFEMS knowledge hub and a global network of over 30,000 peers. You're no longer just a user; you're part of a global collective dedicated to advancing the art of simulation.

The Benefit of Membership	How You Win
Professional Development	Build skills beyond tool usage with access to world-class, vendor-neutral training
Career Advancement	Achieve globally recognized PSE Certification to validate your expertise and accelerate your career
Knowledge & Insight	Gain access to 9,000+ technical papers and 200+ publications and solve your toughest challenges
Community & Networking	Connect with 30,000+ simulation experts at exclusive events, forums, and technical communities

Take the Next Step in Your Professional Journey

Our partnership with NAFEMS delivers a superior simulation tool. By joining the community, you can become a superior practitioner. The combination of a world-class tool and a world-class professional is an unbeatable formula for success.

Join us as a member of the world's leading independent simulation community.
